Summary

Dynamic Frontend Developer with over 3 years of experience building responsive, real-time web applications. Expert in JavaScript frameworks (React, Redux) and WebSocket communication (Socket.IO), with a strong foundation in full-stack development (Node.js, REST APIs). Proven skills in performance optimization and delivering user-focused solutions. Collaborative team player with a passion for mentoring. Excited to apply my expertise to an Angular Developer role.

Skills

- **Frontend Technologies**: JavaScript (ES6+), React (v16, v18), Redux, jQuery (v3), HTML5, CSS3, SASS
- **Backend Technologies**: Node.js (v8), Express.js (v4), MongoDB, MySQL
- **Development Tools**: Git, AWS (deployment), REST API integration
- **Key Competencies**: Responsive design, performance optimization (lazy loading, tree shaking), unit testing, debugging

Experience

Frontend Developer   *Gurgaon*
ParallelDots   *November 2022 – Present*

- Improved user experience by accelerating page load speeds by 25% through optimization techniques like lazy loading and tree shaking.
- Built scalable web applications from design prototypes using React, Redux, and modern JavaScript, adhering to industry best practices.
- Partnered with designers and developers to deliver client-aligned solutions, ensuring seamless functionality and user satisfaction.
- Mentored a frontend intern for 6 months, enhancing team skills and fostering professional development.
- Wrote and maintained unit tests using Jest, ensuring robust and reliable frontend code while reducing production bugs.

Frontend Developer Intern   *Gurgaon*
ParallelDots   *June 2022 – Nov 2022*

- Designed and deployed responsive UI components for 11+ web applications, integrating REST APIs for enhanced performance.
- Debugged and resolved code issues efficiently, ensuring application stability with timely fixes.
- Implemented frontend best practices, boosting usability and responsiveness for client and company projects.

Projects

Friendlee   *Github* ↗

Created a real-time chat platform using the MERN stack (MongoDB, Express.js, React, Node.js) and Socket.IO for instant messaging. Engineered WebSocket communication to enable low-latency, interactive user experiences.

Education

BA   *Aug 2021*

Graduated - August 2021, Kanoria PG Mahila Mahavidyalaya, Jaipur
