Shivani Gupta

Jaipur | Email | Portfolio | shivani-gupta | shivani-gupta

Summary

Dynamic Frontend Developer with over 3 years of experience building responsive, real-time web applications. Expert in JavaScript frameworks (React, Redux) and WebSocket communication (Socket.IO), with a strong foundation in full-stack development (Node.js, REST APIs). Proven skills in performance optimization, including lazy loading and tree shaking, delivering user-focused solutions. Collaborative team player passionate about mentoring and driving technical decisions. Experienced in creating scalable CRUD systems with secure authentication, managing multiple projects in fast-paced environments.

Skills

- **Frontend Technologies**: JavaScript (ES6+), React (v16, v18), Redux, jQuery (v3), HTML5, CSS3, SASS
- **Backend Technologies**: Node.js (v8), Express.js (v4), MongoDB, MySQL
- **Development Tools**: Git, AWS (deployment), REST API integration
- **Key Competencies**: Responsive design, performance optimization (lazy loading, tree shaking), unit testing, debugging

Experience

Frontend Developer *Gurgaon*
ParallelDots *November 2022 – Present*

- Architected and delivered enterprise-level react web applications with advanced Redux state management, leading end-to-end application planning and complex data flow architecture while serving tens of thousands of users across multiple scalable client-facing platforms.
- Led technical mentorship and stakeholder collaboration, guiding 1 junior developer to independence over 6 months while driving strategic technical decisions with product managers and business teams.
- Engineered high-performance applications achieving 20% page load speed improvement, implementing advanced optimization techniques including lazy loading, tree shaking, and WebSocket integration for real-time notifications.
- Developed mission-critical frontend CRUD systems eliminating multiple third-party dependencies, creating comprehensive data management platforms with secure JWT authentication that provided clients complete control over their data pipeline while managing multiple concurrent projects with consistent on-time delivery.
- Demonstrated exceptional project management and technical problem-solving capabilities, successfully managing multiple concurrent high-stakes projects with tight deadline delivery, resolving complex architectural challenges, and consistently delivering production-ready solutions without quality compromise in fast-paced environments.

Frontend Developer Intern *Gurgaon*
ParallelDots *June 2022 – Nov 2022*

- Developed 11+ responsive web pages and completely revamped a company website within 3 weeks, utilizing HTML, CSS, JavaScript, and jQuery while implementing responsive design principles and CSS media queries to ensure seamless functionality across desktop, tablet, and mobile devices.
- Built and maintained React applications with Redux state management, creating reusable UI components, integrating REST APIs for dynamic data fetching, and writing Jest test cases to ensure code quality and application reliability.
- Demonstrated strong problem-solving skills through comprehensive debugging and performance optimization, conducting timely bug fixes, and implementing systematic testing processes to maintain optimal user experience.
- Collaborated cross-functionally with UX/UI designers, backend developers, marketing, and product teams to translate design concepts into functional web interfaces while maintaining brand consistency and implementing new features for both internal tools and client-facing applications.

Projects

Friendlee *Github*

Created a real-time chat platform using the MERN stack (MongoDB, Express.js, React, Node.js) and Socket.IO for instant messaging. Engineered WebSocket communication to enable low-latency, interactive user experiences.

Certifications

Nodejs - The complete Guide (MVC, REST APIs, GraphQL, Deno) *Certificate*

Education

BA *Aug 2021*

Graduated - August 2021, Kanoria PG Mahila Mahavidyalaya, Jaipur
